

6th September

Dear Parents,

Asthma and inhalers

I would like to remind all parents that, if your child needs an inhaler, there should be one in school. Please help us by:

- Making sure your child has a reliever (usually blue) inhaler in school at all times
- Remembering to check that the inhaler in school is in date and has some medication in it
- Making sure that the school has a spacer for your child if they use one at home
- Labelling the inhaler/spacer clearly with your child's name
- Remembering to ask your G.P. to prescribe a spare inhaler/spacer for school

We are sending out medical information update forms later this week. Please do come in and speak to the office before then if there are any significant changes to medical information which you think are urgent. Thank you for helping us to keep your children safe in school.

Yours truly,

M A Emery
